PRONE LEG CURL TP-1101

- 📏 Dimension : 65*37*61 Inch
- ⚖️ Net Weight : 190 KGS.
- 📦 Weight Stack : 80 KGS.

■ The Alpha Series Prone Leg Curl uses a prone design to enhance the ease-of-use experience. The widened elbow pads and grips help users to better stabilize the torso, and the ankle roller pads can be adjusted according to different leg lengths and ensure stable and optimal resistance.

LEG EXTENSION TP-1102

- 📏 Dimension : 60*40*61 Inch
- ⚖️ Net Weight : 200 KGS.
- 📦 Weight Stack : 80 KGS.

■ The Alpha Series Leg Extension have multiple starting positions, which can be adjusted freely according to user needs to improve exercise flexibility. The adjustable ankle pad allows the user to choose the most comfortable posture in a small area. The adjustable back cushion allows the knees to be easily aligned with the pivot axis to achieve good biomechanic.

LEG PRESS TP-1103

- 📏 Dimension : 82*41*61 Inch
- ⚖️ Net Weight : 235 KGS.
- 📦 Weight Stack : 94 KGS.

■ The Alpha Series of Leg Press have widened foot pads. To achieve a better training effect, the design allows full extension during exercises, and supports maintaining verticality to simulate a squat exercise. The adjustable seat back can provide different users with their desired starting positions.

PEC FLY / REAR DELT TP-1107

- 📏 Dimension : 52*48*79 Inch
- ⚖️ Net Weight : 200 KGS.
- 📦 Weight Stack : 80 KGS.

■ The Alpha Series Leg Extension have multiple starting positions, which can be adjusted freely according to user needs to improve exercise flexibility. The adjustable ankle pad allows the user to choose the most comfortable posture in a small area. The adjustable back cushion allows the knees to be easily aligned with the pivot axis to achieve good biomechanic.

DIP / CHIN ASSIST TP-1109

- Dimension : 61*54*93 Inch
- Net Weight : 235 KGS.
- Weight Stack : 88 KGS.

The Alpha Series Dip/Chin Assist not only can it be used as a part of the serial modular core of a plug-in workstation or a multi-person station, but it is also a mature dual-function system. Large steps, comfortable knee pads, rotatable tilt handles and multi-position pull-up handles are part of the highly versatile dip/chin assist device. The knee pad can be folded to realize the user's unassisted exercise. The linear bearing mechanism provides guarantee for the overall stability and durability of the equipment.

SEATED DIP TP-1126

- Dimension : 47*67*62 Inch
- Net Weight : 206 KGS.
- Weight Stack : 80 KGS.

The Alpha Series Seated Dip adopts a design for the triceps and pectoral muscle groups. The equipment realizes that while ensuring the safety of training, it replicates the movement path of the traditional push-up exercise performed on parallel bars and provides supported guided exercises. Help users better train corresponding muscle groups.

SEATED LEG CURL TP-1123

- Dimension : 65*42*61 Inch
- Net Weight : 215 KGS.
- Weight Stack : 80 KGS.

The Alpha Series Seated Leg Curl is designed with adjustable calf pads and thigh pads with handles. The wide seat cushion is slightly inclined to correctly align the exerciser's knees with the pivot point, helping customers find the correct exercise posture to ensure better muscle isolation and higher comfort.

LONG PULL TP-1123

- Dimension : 69*52*78 Inch
- Net Weight : 185 KGS.
- Weight Stack : 80 KGS.

The Alpha Series LongPull not only can it be used as a part of the serial modular core of a plug-in workstation or a multi-person station, but it is also can be used as an independent mid row device. The LongPull has a raised seat for convenient entry and exit. Separate foot pad can adapt to users of different body types without obstructing the motion path of the device. The mid-row position allows users to maintain an upright back position. Handles are easily interchangeable.

LAT PULL DOWN TP-1135

📏 Dimension : 46*48*92 Inch

⚖️ Net Weight : 190 KGS.

📦 Weight Stack : 80 KGS.

- The Alpha Series Lat Pulldown not only can it be used as a part of the serial modular core of a plug-in workstation or a multiperson station, but it is also can be used as an independent lat pull down device. The pulley on the Pulldown is located so that users can make the movement in front of the head smoothly. The thigh pad adjustment accommodates a wide variety of users, and the replaceable handle allows users to practice with different accessories.

LAT & PULLEY MACHINE TP-1185 A

📏 Dimension : 78*54*88 Inch

⚖️ Net Weight : 195 KGS.

📦 Weight Stack : 80 KGS.

- The Alpha Series Lat & Pulley Machine is a dual-function machine with lat pulldown and mid-row exercise positions. It features an easy-to-adjust thigh hold-down pad, extended seat and foot bar to facilitate both exercises. Without leaving the seat, you can quickly switch to another training through simple adjustments to maintain training continuity.

CHEST & SHOULDER PRESS TP-1184 A

📏 Dimension : 68*57*61 Inch

⚖️ Net Weight : 226 KGS.

📦 Weight Stack : 80 KGS.

- The Alpha Series Chest Shoulder Press realizes the integration of the functions of the three machines into one. On this machine, the user can adjust the pressing arm and seat on the machine to perform bench press, upward oblique press and shoulder press. The comfortable oversized handles in multiple positions, combined with the simple adjustment of the seat, allow users to easily sit in position for different exercises.

LEG EXTENTION & LEG CURL TP-1186 A

- 📏 Dimension : 59*40*61 Inch
- ⚖️ Net Weight : 225 KGS.
- 📦 Wieght Stack : 80 KGS.

■ The Alpha Series Leg Extension / Leg Curl is a dual-function machine. Designed with convenient shin pad and ankle pad, you can easily adjust from the sitting position. The shin pad, located below the knee, is designed to help the leg curl, thereby helping users find the correct training position for different exercises.

CAMBER CURL & TRICEPS TP-1187 A

- 📏 Dimension : 52*42*61 Inch
- ⚖️ Net Weight : 195 KGS.
- 📦 Wieght Stack : 80 KGS.

■ The Alpha Series Camber Curl Triceps use biceps/triceps combined grips, which can accomplish two exercises on one machine. The single-seater adjustable ratchet can not only help the user find the correct movement position, but also ensure the best comfort. The correct exercise posture and force position can make exercise performance better. Support the user to easily switch between two exercise modes with a simple adjustment to complete the main training of the arm without leaving the device.

ABDUCTOR & ADDUCTOR TP-1189 A

- 📏 Dimension : 61*36*31 Inch
- ⚖️ Net Weight : 223 KGS.
- 📦 Wieght Stack : 80 KGS.

■ The Alpha Series Abductor targets the hip abductor muscles, more commonly known as the glutes. The weight stack shields the exerciser's front well to protect the privacy during use. The foam protection pad provides good protection and cushioning. A comfortable exercise process makes it easier for the exerciser to focus on the force of the glutes.

KNIGHT SERIES

LAT PULLDOWN

TP - 5112

TP - 5112

Dimension: 1240*1465*2230 mm
Weight: 256 kg
Weight Stack: 110 kg

The Knight Series Lat Pulldown follows the outstanding design style of this category, with the pulley position on the device allowing the user to move smoothly in front of the head. The seat and adjustable thigh pads have been ergonomically optimized for better support and comfort.

TOPPRO®

CHEST & SHOULDER PRESS

TP - 5084

TP - 5084

Dimension: 1660*1120*1510 mm
Weight: 255 kg
Weight Stack: 110 kg

The Knight Series Chest Shoulder Press realizes the integration of the functions of the three machines into one. On this machine, the user can adjust the pressing arm and seat on the machine to perform bench press, upward oblique press and shoulder press. The seat and back pad have been ergonomically optimized for better support and comfort. And comfortable oversized handles in multiple positions, combined with the simple adjustment of the seat, allow users to easily sit in position for different exercises.

LAT PULLDOWN & LOW ROW

TP - 5085

TP - 5085

Dimension: 2070*1110*2240 mm
Weight: 256 kg
Weight Stack: 110 kg

The Knight Series Lat & Pulley Machine is a dual-function machine with lat pulldown and mid-row exercise positions. It features an easy-to-adjust thigh hold-down pad, extended seat and foot bar to facilitate both exercises. Without leaving the seat, you can quickly switch to another training through simple adjustments to maintain training continuity.

LEG EXTENSION & LEG CURL

TP - 5086

TP - 5086

Dimension: 1660*1120*1510 mm
Weight: 255 kg
Weight Stack: 110 kg

The Knight Series Leg Extension / Leg Curl is a dual-function machine. Designed with convenient shin pad and ankle pad, you can easily adjust from the sitting position. The seat and back pad have been ergonomically optimized for better support and comfort. And shin pad, located below the knee, is designed to help the leg curl, thereby helping users find the correct training position for different exercises.

CAMBER CURL & TRICEPS

TP - 5087

TP - 5087

Dimension: 1380*1145*1510 mm
Weight: 232 kg
Weight Stack: 110 kg

The Knight Series Camber Curl Triceps use biceps/triceps combined grips, which can accomplish two exercises on one machine. The single-seater adjustable ratchet can not only help the user find the correct movement position, but also ensure the best comfort. The seat and back pad have been ergonomically optimized for better support and comfort. And correct exercise posture and force position can make exercise performance better.

Smith & Multi Functional Trainer

TP - 1500

SPECIFICATIONS

Dimensions	: 85 (L) x 62 (W) x 90 (H)
Tube Size	: 50 mm x 80 mm
Tube Thickness	: 3 mm
Weight Stack	: 80 Kgs + 80 Kgs = 160
Weight Stack Material	: MS
Weight Conversion Ratio	: 1 : 2 Effective Weight
Net Weight	: 476 Kgs
Accessories	: D handles 2 Pcs Olympic Bar 1 Pc Multi Grip T bar Handle 1 Pc

The TOPPRO Multi Functional Smith Machine features the most popular training types in one. The best strength training solution for limited space. It has pull up/chin up bars, spotter arms, j hooks for squat and barbell rest, an outstanding cable system and probably 100 other features. The stable and reliable smith system provides fixed rails to help exercisers get lower while stabilizing training positions starting weight. Support single or multi-person training at the same time.

- Multifunctional
- The Smith Bar System
- Small but Complete

TP - 1500

Smith & Multi Functional Trainer

TP - 2100

SPECIFICATIONS

Dimensions	: 101 (L) x 40 (W) x 97 (H)
Tube Size	: 50 mm x 100 mm
Tube Thickness	: 3 mm
Weight Stack	: 92 Kgs + 92 Kgs = 184 Kgs
Weight Stack Material	: MS
Net Weight	: 480 Kgs
Accessories	: D Handle 4 Pcs

As a combination of traditional cable motion and smith machine, TOPPRO Multi Power Station not only retains the various free weight training of Smith Machine, but based on cable motion, through the addition of a pair of pulleys and two heavier weight stacks, which increases the number of people who can train at the same time and more training possibilities for your strength zone.

- One Machine, Multi Solution
- Smith System with Storage
- Adaptive Pull-up Handle
- Dual Pulley System

WARRIOR SERIES

WARRIOR SERIES

TP-501

TOPPRO®

TP-501

BELT SQUAT

Dimension: 2055*1690*1460 mm
Weight: 182 kg

■ The Warrior Series Belt Squat is a versatile machine that targets the entire thigh and gluteus muscles. Unlike traditional squats that put pressure on the spine, the Belt Squat relieves the spine and allows for more comfortable and effective training. With the ability to adjust your stance, you can target different muscle groups and optimize your workout. The machine also includes additional pins for elastic straps to add resistance and challenge your muscles.

TP-502

TP-502

POWER SMITH MACHINE

DUAL SYSTEM

Dimension: 1880*2010*1750 mm
Weight: 165 kg

■ The Warrior Series Power Smith Dual System is an innovative machine designed to perform thrust movements of the upper limbs safely and efficiently. It features independent load and a convergent trajectory that amplifies the range of motion compared to traditional Smith Machines.

WARRIOR SERIES

TP-503

TOPPRO®

TP-503

ABDOMINAL CRUNCH

Dimension: 1380*1776*1720 mm
Weight: 121 kg

■ The Warrior Series Rotating Abdominal Crunch is a must-have for anyone looking to target their abdominal muscles with precision. Unlike traditional ab crunch machines, this equipment features two suspension points on both sides that provide greater resistance and a more challenging workout. The equipment is also highly stable and includes storage pins for weight plates.

TP-504

TP-504

HIGH ROW

Dimension: 1940*1650*1980 mm
Weight: 157 kg

■ The Warrior Series High Row Dual is the ultimate machine for targeting your back muscles. This machine simulates the motion of a traditional high row exercise, but with added features to enhance your workout. The built-in storage pins allow for easy access to weight plates, and the height-adjustable seat pad and thigh pad ensure comfortable and secure fit during your workout.

WARRIOR SERIES

TP-505

TOPPRO®

CHEST BUTTERFLY

Dimension: 1570*1630*970 mm
Weight: 105 kg

■ The Warrior Series Chest Butterfly Dual is a versatile and effective plate-loaded machine designed to provide a comfortable and challenging workout for your chest muscles. The unique 45-degree tilted seat and backrest design allows for better isolation of the pectoral muscles, resulting in a more effective workout.

TP-506

STANDING MULTI FLIGHT STANDING LATERAL RAISE

Dimension: 1425*886*1990MM
Weight: 322 kg
Stack Weight: 80 kg

■ The Standing Multi Flight is a station that allows you to train in standing position muscles to different angles, it is possible to perform lateral, frontal, and rear movements that stimulate the corresponding muscular bundles. Changing the setting at the station is also possible to train pectoral and dorsal muscles.

WARRIOR SERIES

TP-507

TP-507

CIRCULAR LAT PULLDOWN

Dimension: 1930*1860*2060 mm
Weight: 195 kg

■ The Warrior Series Circular Lat Pulldown allows for a comfortable and ergonomic seated position while performing an effective downward pulling motion that targets the dorsal and arm muscles. The scissor design provides a secure and stable workout, ensuring maximum results.

TP-508

TP-508

STANDING ABDUCTOR

Dimension: 1628*1000*1441 mm
Weight: 113 kg

■ The Warrior Series Standing Abductor is designed to maximize the activation of the glute muscles. Compared with the abductor training in the sitting position, the standing position can stimulate the glute muscles more effectively and train more fully. Users can choose the squat height according to their needs, and the extended handrail help users maintain balance during training.

WARRIOR SERIES

TP-509

TOPPRO®

POWER SQUAT

Dimension: 1600*1100*400 mm
Weight: 235 kg

■ The Warrior Series Power Squat is designed to allow the user to fully stimulate all muscle groups during a free weight squat while minimizing the potential for injury and danger. Many exercisers have great difficulties due to established weaknesses in biomechanics, injuries, irregular limb lengths, and the inability to hold the bar in place for a variety of reasons. And Power Squat is their best solution.

TP-510

STANDING HIP THRUST

Dimension: 1303*1590*1440 mm
Weight: 95 kg

■ The Warrior Series Hip Thrust ensures optimal biomechanics, allowing you to experience the hip thrust movement in its purest form while prioritizing your comfort and exercise effectiveness. No more adjustments or discomfort the TP-510 is tailored for the utmost precision and efficiency in every rep.

WARRIOR SERIES

TP-511

TOPPRO®

GLUTE BUILDER

Dimension: 1930*1400*515 mm
Weight: 117 kg

- The Glute Builder is a multifunctional machine designed to provide a hasslefree way to perform effective free weight glute exercises.

TP-512

MULTI ABDUCTOR

Dimension: 1485*1265*1360 mm
Weight: 119 kg

- The TP-512 Multi Abductor is designed to optimize hip abduction exercises by replicating the natural mechanics of the hip joint. This innovative machine enhances the effectiveness and stimulus of your workouts, making it a valuable addition to any fitness routine.

WARRIOR SERIES

TP-513

TOPPRO®

PENDULAM SQUAT

Dimension: 2430*1410*1670 mm
Weight: 205 kg

■ The T-513 Pendulum Squat by TOPPRO Fitness offers an exceptional lower body workout with innovative features that set it apart from the competition. This machine provides a deep and controlled range of motion, allowing for effective squatting exercises that target key muscle groups. With a large back pad for secure body placement and sturdy uprights for stability, the TP-513 ensures a safe and comfortable training experience.

TP-514

STANDING T-BAR ROW

Dimension: 2085*995*910 mm
Weight: 100 kg

■ The TP-514 Standing T-Bar Row by TOPPRO Fitness is designed to deliver a powerful and effective back workout, targeting key muscle groups with precision and versatility. Featuring angled foot platform, this machine ensures a stable and secure base for intense rowing exercises. The adjustable handle width allows for customized training, while each handle offers three distinct grip options, enabling you to target different muscles with varying intensities.

WARRIOR SERIES

TP-515

TOPPRO®

SEATED DELTOID FLY

Dimension: 1635*900*1220 mm
Weight: 63 kg

■ The TP-515 Seated Deltoid Fly by TOPPRO Fitness is expertly engineered to target the upper back, rear deltoids, and the lower-middle portion of the trapezius. Incorporating advanced biomechanics, this machine ensures precise and effective muscle engagement with every rep. The adjustable seat and backrest distance provide a customized fit, while the design allows for isolated rear deltoid exercises. Whether you prefer unilateral or bilateral workouts, the TP-515 Seated Deltoid Fly offers the versatility and control needed for superior shoulder and back development.

TP-516

BELT HIP THRUST

Dimension: 1510*1570*900 mm
Weight: 79 kg

■ Take your lower body workouts to the next level with the TP-516 Hip Thrust Glute Machine. Designed to isolate and activate your glutes, this machine ensures maximum muscle engagement and growth. With adjustable plate-loaded resistance and an ergonomic design, it provides a comfortable, durable platform for hip thrusts and other lower body exercises. Compact and versatile, it's perfect for any gym setup.

WARRIOR SERIES

TP-517

TOPPRO®

INCLINE LINEAR ROW

Dimension: 1710*910*1210 mm
Weight: 147 kg

■ The TP-517 Incline Linear Row is a groundbreaking addition to our lineup, designed to elevate your back and shoulder workouts with unmatched precision and safety. Engineered with an ergonomic design and robust construction, this machine ensures precise movements, maximizing the efficiency of each exercise.

TP-518

CHEST PRESS

Dimension: 1460*2060*1675 mm
Weight: 210 kg

■ The TP-518 Chest Press by TOPPRO Fitness is engineered to deliver a superior upper body workout with enhanced stability and precision. Featuring an innovative linkage drive system and a horizontal fixed track, this machine ensures a smooth and consistent press movement. The straight and consistent press movement. The straight-line motion maintains optimal elbow and shoulder alignment, providing a stable exercise experience and excellent muscle engagement.

TP-722

ISOLATERAL CHEST/BACK

📏 Dimension:
1830*1330*2090 mm

⚖️ Weight:

The Plate-Loaded Iso-Lateral Chest/Back was blueprinted from human movement. Separate weight horns engage independent diverging and converging motions for equal strength development and muscle stimulation variety. This combination machine offers a solution for both chest and back workouts.

TOPPRO®

TP-723

ISOLATERAL ROW

📏 Dimension:
1500*1270*1300mm

Weight:

The Plate-Loaded Iso-Lateral Row was blueprinted from human movement. Separate weight horns engage independent diverging and converging motions for equal strength development and muscle stimulation variety. It provides a compact, low-profile design and multiple grips for exercise variety.

TP-724

ISOLATERAL WIDE CHEST

📏 Dimension:
1150*1500*1760mm

⚖️ Weight:
139 kg

The Plate-Loaded Iso-Lateral Wide Chest was blueprinted from human movement. Separate weight horns engage independent diverging and converging motions for equal strength development and muscle stimulation variety. This machine offers a higher degree of converging motion than the decline press and accommodates larger exercisers.

TP-725

SEATED DIP

📏 Dimension:
1820*1240*1090mm

⚖️ Weight:
130 kg

The Plate-Loaded Seated Dip allows exercisers to perform the exercise facing in or out for added variety.

The Plate-Loaded Iso-Lateral Leg Extension was blueprinted from human movement. Separate weight horns engage independent diverging and converging motions for equal strength development and muscle stimulation variety.

TOPPRO®

TP-727

ISOLATERAL BENCH PRESS

📏 Dimension:
1380*1450*1450

⚖️ Weight:
137 kg

The Plate-Loaded Iso-Lateral Bench Press features separate weight horns that provide independent diverging and converging motions for equal strength development. Features Horizontal and Vertical grip options to replicate traditional bench presses or athletic movements. The Horizontal option is the most popular machine with a horizontal grip position.

VL TP-728

90 DEGREE LEG PRESS

📏 Dimension:
1524*1524*1828

⚖️ Weight:
130 kg

The 90-degree leg press is a strength training exercise that primarily targets the quadriceps, hamstrings, and glutes. In this exercise, you sit in a leg press machine with your back against the padded support and your feet placed shoulder-width apart on a platform. The platform is positioned at a 90-degree angle relative to the floor, allowing for a controlled range of motion.

TP-7252

POWER FLEX HALF RACK

- Dimension: 1430*1555*2370 mm
- Weight: 609 lbs (277 kg)
- Weight Stack: Max 440 lbs * 2 (200 kg * 2)

Experience the ultimate in versatility with the PowerFlex Half Rack. Built from heavy-duty, commercial-grade materials, this half rack supports plate-loaded functionality, allowing you to tailor your workouts to your strength goals. Its compact design fits seamlessly into any gym space, while still providing the stability and performance you need for effective training.

POWER FLEX FULL RACK

- Dimension: 2160*1670*2355 mm
- Weight: 706 lbs (321 kg)
- Weight Stack: Max 440 lbs * 2 (200 kg * 2)

The PowerFlex Full Rack delivers unparalleled strength and versatility for your most demanding workouts. This commercial-grade full rack supports plate-loaded functionality, giving you the flexibility to adjust your resistance as needed. Perfect for serious athletes and home gym enthusiasts alike, it ensures a safe and effective lifting environment.

TP-7254

LEVER ARM RACK

- Dimension: 2470*2100*2500 mm
- Weight: 460 kg

TOPPRO provides a new training solution for those who do not want to sacrifice floor space but are fond of traditional jammer press movements. The Lever arm rack can be quickly attached and detached from the power rack, its modular design utilizes space-saving movements to replace cumbersome lever parts

India's Premium Fitness Equipments Brand

TITAN SERIES

DELUXE CHEST PRESS / Y905ZA

📏 Dimension: 1670*1490*1835 mm
⚖️ Weight: 310 kg

- The Chest Press uses a forward converging movement that effectively activates the pectoralis major, triceps, and anterior deltoid. The motion arms can be moved independently, not only ensuring a more balanced muscle exercise, but also supporting the user in individual training.

DELUXE WIDE CHEST PRESS Y910ZA

📏 Dimension: 1690*1460*1870 mm
⚖️ Weight: 265 kg

- The Wide Chest Press strengthens the lower pectoralis through a forward converging movement while activating the pectoralis major, triceps, and anterior deltoid. Excellent biomechanical trajectory makes training more comfortable and effective. Balanced strength increase, support for single-arm training, both thanks to the variety training possibilities offered by the independent motion arms.

DELUXE INCLINE CHEST PRESS / Y915ZA

📏 Dimension: 1830*1480*1800 mm
⚖️ Weight: 280 kg

- The Incline Chest Press is designed to better train the upper chest muscles. Excellent biomechanical standards and ergonomic design ensure training effectiveness and comfort. The motion arms can be moved independently, not only ensuring a more balanced muscle exercise, but also supporting the user in individual training.

DELUXE PULL DOWN Y920ZA

📏 Dimension: 2090*1475*2040 mm
⚖️ Weight: 235 kg

- The Pull Down provides a natural arc of motion and greater range, allowing users to effectively train the lats and biceps. The independently moving arms ensure balanced strength increase and allow for separate training. Excellent motion path design makes training smooth and comfortable.

DELUXE LOW ROW / Y925ZA

Dimension: 1500*1475*1870 mm
Weight: 275 kg

■ The Low Row offers activation programs for multiple muscle groups, including the lats, biceps, rear delts, and traps. Dual-hold position handgrips involve training of different muscles. The independently motion arms ensure the balance of the training and supports the user to perform independent training. The central handle provides stability during single-arm training.

DELUXE ROW Y920ZA

Dimension: 1670*1350*1340 mm
Weight: 230 kg

■ The Row is designed to activate the lats, biceps, rear deltoid, and trapezius muscles. Provides variety training with dual-grip handles. The independently motion arms guarantee the balanced strength increase and allows the user to train independently. The central handle is responsible for the stability of independent workouts.

DELUXE SHOULDER PRESS / Y935ZA

Dimension: 1500*1830*1715 mm
Weight: 280 kg

- The Shoulder Press provide the feel of free weight training, with an excellent biomechanical design ideal for strengthening delts, triceps and upper traps by replicating the overhead press. The independently motion arms guarantee the balanced strength increase and allow the user to train independently.

DELUXE REAR KICK Y940ZA

Dimension: 1600*1400*1900 mm
Weight: 175 kg

- The Rear Kick replicates the rear kick movement with mechanically transmitted weight loads, which is an ideal choice for training glutes, hamstrings, and quads. The large footplates allow users to train in multiple positions, while the ergonomic pads provide reasonable stress distribution while stabilizing the torso.

DELUXE LEG EXTENSION / Y960ZA

📏 Dimension: 1520*1285*1170 mm
⚖️ Weight: 185 kg

- The Leg Extension is designed to utilize the motion trajectory by isolating and fully engaging the quadriceps. The purely mechanical transmission structure ensures the accurate transmission of the load weight, and the ergonomically optimized seat and shin pads ensure training comfort.

DELUXE SEATED DIP Y965ZA

📏 Dimension: 1815*1700*1050 mm
⚖️ Weight: 180 kg

- The Seated Dip is designed to fully activate the triceps and pectoral muscles, providing optimal workload distribution based on an excellent trajectory of motion. The independently motion arms guarantee the balanced strength increase and allow the user to train independently. Optimal torque is always provided to the user during the training.

DELUXE BICEP CURL / Y970ZA

Dimension: 1610*1180*1035mm
Weight: 170 kg

■ The Biceps Curl replicates the same biceps curl following the movement pattern of the elbow's physiological power curve under load. The pure mechanical structure transmission makes the load transmission smoother, and the addition of ergonomic optimization makes the training more comfortable.
